

All Together

As the days go by I put it
All together

I've been waiting quite some time
For the perfect time
To throw myself into the rhyme
And let it roll

Chorus:

As the days go by
I put it all together
I finished asking why
And let go forever

I debated at the door
Am I worth some more?
More for me and for the world
And one day my little girl

Everday could hold regrets
When my best's not here yet, but
Chuck it all if it'll get
the best of me

Chorus:

As the days go by
I put it all together
I finished asking why
And let go forever

As the days go by
I put it all together
I'm only here to love
And that love's forever

Bridge:

So you're back on track
The world's less crazy
You're out of debt
And you had the baby

You put yourself on the
Banquet table
And serve your someone

Chorus 2x
