

Glad to Know

**I've been calling
Calling to the birds
For their sweet, simple
Melodies**

**I've been searching
Searching for the words
To make sense of
Tragedies**

**I'm so glad to know
I found you
'Cause this life's
Felt long**

**But another summer's
Here again
And here's where
I belong**

**Chorus:
Glad to know you and me
Have got what it takes
Glad to know I've been free
To make each mistake**

**'Cause when the love comes
And it comes everyday
Glad to know you
Meant for it to be this way**

**I am different - different than before
With my world seeing too much red
I've accepted - I'm the matador
But I'll jump the fence instead**

**I'm so glad to know
I found you
When the nights
Grow steep**

**See, I'm banking so much
faith inside
And finally I can
Sleep**

Chorus:

**Bridge:
When my day falls in all directions
There's remedy in the comedy
When I trust in the imperfection
It leads me to believe
You're all I'll ever need**

Chorus:

**Last Chorus:
Glad to know you and me
Are all that it takes
Glad to know I've been free
To make each & every mistake**

**'Cause when the love comes
And it'll come everyday
Glad to know you
And to show myself through You
Glad to know you.....
Meant for it to be this way**
