

## Here's the Love

Where's the love? Oh, please...  
Where's the love?

Here's the love. That's right....  
Here's the love

Looking for the new things  
Waiting for familiar

Hold your breath and life brings  
Exactly what you need

Tempering your temper  
You are getting better

Same you only better....

Who's got your back? I do  
I got your back

Who gets a smile? You do  
You get a smile

When the course gets cryptic  
You're a growing skeptic

Unapologetic  
'Cause pieces fell apart

Taking hold, Your puzzle  
Leads you from your trouble

Leads you from your bubble  
back to us
