

Love Will Come Again

Chorus:

**Girl, make up your mind
Make up your heart
It's all in time
Love will come again
You won't be wrong
You're only right
As you go on
Love will come again**

**Couldn't decide if you could make it
Tempted by the tv, you were ready to fold
Something inside propelled you out here
Grateful for the moment you started to let go**

Chorus:

**Bet you he was the man you dreamt of
And tell me she's the woman
You were ready to hold
Bet you you think it's clear deception
The way this life has plagued you
Your pain is getting older**
