

## **The Best Things Are Easy**

**The best things are easy  
Like birthdays and Fridays  
And paydays  
The May days of weekends  
galore**

**The beaches and oceans  
With screeches of seagulls  
In motion  
The surfers who light up  
The board**

**When a stranger  
Has painted your picture  
And the portrait's  
Good as you**

**Now behold  
The magic in a day  
The magic in a day  
There's magic in a day**

**The best things are easy  
Like being ahead of the traffic  
The package that's perfect  
To send**

**The laughter just after  
A fight with your partner  
Or lover  
Discovering Mother's  
A friend**

**You remember  
When every struggle  
Could endanger**

**Every dream**

**Now behold  
What light can wash away  
What light can wash away**

**The best things are easy  
Like naptime and bathtime  
And bedtime**

**The cuddle, the huddle  
The love, mmmmm.....  
A story or fable  
To teach us again why we're able  
The message embracing us all**

**The best things are easy  
The best things are easy  
The best things are easy**
