

Wholehearted

In the neighborhood
Walking through
The place you grew
Where your longitude
Lat you have
Some latitude
And your attitude
Though it was still raw
Would look ahead

There's a difference
Over time we learn
Is clear
Separating those
Who permeate
the atmosphere
Heading for the thing
We all hold most dear
And need to share

Chorus:
Wholehearted
Life is getting good
I knew it would
I'm here now
I've started
Wholehearted

Wholehearted
Life is feeling good
I knew it would
I'm here now
I've started
Wholehearted

If your vision's strong
You won't be denied it
Best to close your eyes
Before you try and find it
Then it's no surprise
What you do believe
Is what you get

In the interim
Everybody prays
For love
Who do you forget?
Who are you
Thinking of?
Do you still regret?
Oh, ok.....
Straight to your telephone

Chorus:
Wholehearted
Life is getting good
I knew it would
I'm here now
I've started
Wholehearted

Wholehearted
Life is feeling good
I knew it would
I'm here now
I've started
Wholehearted
